Docket No. CP22-____-000

NOTICE OF APPLICATION FOR CERTIFICATE OF
PUBLIC CONVENIENCE AND NECESSITY

(February__, 2022)

Take notice that on January 28, 2022, Equitrans, L.P. (Equitrans), filed an application in Docket No. CP22-____-000 pursuant to Section 7(c) of the Natural Gas Act (“NGA”) and Part 157 of the Commission’s regulations to acquire, construct and operate new facilities as part of its Ohio Valley Connector Expansion (OVCEX) Project. The OVCEX Project is designed to provide up to 350,000 dekatherms per day of firm deliverability on the Equitrans Mainline System. The creation of this expansion capacity will provide shippers with additional flexibility to transport natural gas produced in the central Appalachian Basin to meet the growing demand by local distribution companies, industrial users, and power generation facilities located in the local and mid-continent, northeastern, and gulf coast markets of the United States. Specifically, Equitrans proposes to acquire the Cygrymus Compressor Station in Greene County, Pennsylvania and to construct, own, and operate (i) two turbines at the Cygrymus Compressor Station; (ii) one additional compressor unit at the existing Corona Compressor Station Wetzel County, West Virginia; (iii) one additional compressor unit at the existing Plasma Compressor Station in Monroe County, Ohio; (iv) approximately 5.5 miles of pipeline in different locations related to the compressor stations; (v) one deep anode groundbed and rectifier for cathodic protection in Greene County, Pennsylvania; and (vi) ancillary facilities, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

To intervene, you must submit a motion to intervene to the Commission in accordance with Rule 214 of the Commission's Rules of Practice and Procedure⁴ and the regulations under the NGA⁵ by the intervention deadline for the project, which is [].
